**Subject:** Draft Excelsior permit  
Gunnison ISCR project draft permit 060917.docx

Hi all,

Attached is the draft Class III permit for the Excelsior project. This is a work in progress since we are still waiting for Excelsior to submit their updated permit application—we have included several placeholders/comments to be addressed by the updated information.

Once we receive the updated application, we will fill in the holes; we assume that will take place at the same time as we address your comments on this draft.

Note also that we did not spend time addressing formatting/consistency type things (e.g., in references to other sections/parts of the permit) in this early draft. If you would like us to spend time on this, we propose to do it after the permit is further along.

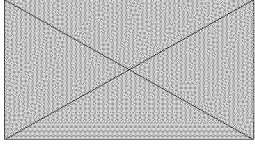

Please let us know if you have any questions.

Have a great weekend.

Shari Ring
